origins we call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i.e. sources from which these orientations and strategies flow thus an appropriate way to preface this book is to talk first of its roots its beginnings in the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself a goal was thus set to write a book that like janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future there were precedents for such a project the handbook of marriage and the family edited by harold christensen and published in 1964 the two contemporary theories about the family volumes edited by wesley burr reuben hill f. ivan nye and ira reiss published in 1979 and the handbook of marriage and the family edited by marvin sussman and suzanne steinmetz then in production

this handbook provides a critical guide to the past present and future of ethnography

just practice a social justice approach to social work provides a foundation for critical and creative social work that integrates theory history ethics skills and rights to respond to the complex terrain of 21st century social work just

practice puts the field of social work's expressed commitment to social justice at center stage with a framework that builds upon five key concepts: meaning, context, power, history, and possibility. How do we give meaning to the experiences and conditions that shape our lives? What are the contexts in which those experiences and conditions occur? How do structures and relations of power shape people's lives and the practice of social work? How might a historical perspective help us to grasp the ways in which struggles over meaning and power have played out? And to better appreciate the human consequences of those struggles? Taken together, these concepts provide a guide for integrative social work that bridges direct practice and community building. The text prepares readers with the theoretical knowledge and practice skills to address the complex challenges of contemporary social work: from direct practice with individuals and families to group work, organizational and community change, and policy analysis and advocacy. Each chapter includes learning activities, reflection moments, practice examples, and the stories and voices of practitioners and service users to engage students as critical thinkers and practitioners. The author encourages teachers and students alike to take risks, move from safe, familiar pedagogical spaces and practices, challenge assumptions, and embrace uncertainty.
